

Solutions for everyday living.

IRIS OHYAMA GROUP

Iris Ohyama was established in 1958 and began as a small town factory for plastic molding in Higashi-Osaka, Japan. More than 50 years since we developed our first original plastic product, we have continued to manufacture and supply a variety of both household and industrial products, such as furniture, home appliances, and hygiene products across the globe.

Akihiro OHYAMA

CEO of Iris Ohyama Group

Kentaro OHYAMA

Founder of Iris Ohyama Group

Provide «Solutions» across the world through a wide range of business development.

Iris Ohyama developed the world's first transparent plastic storage product. It influenced a change in the storage culture of the world.

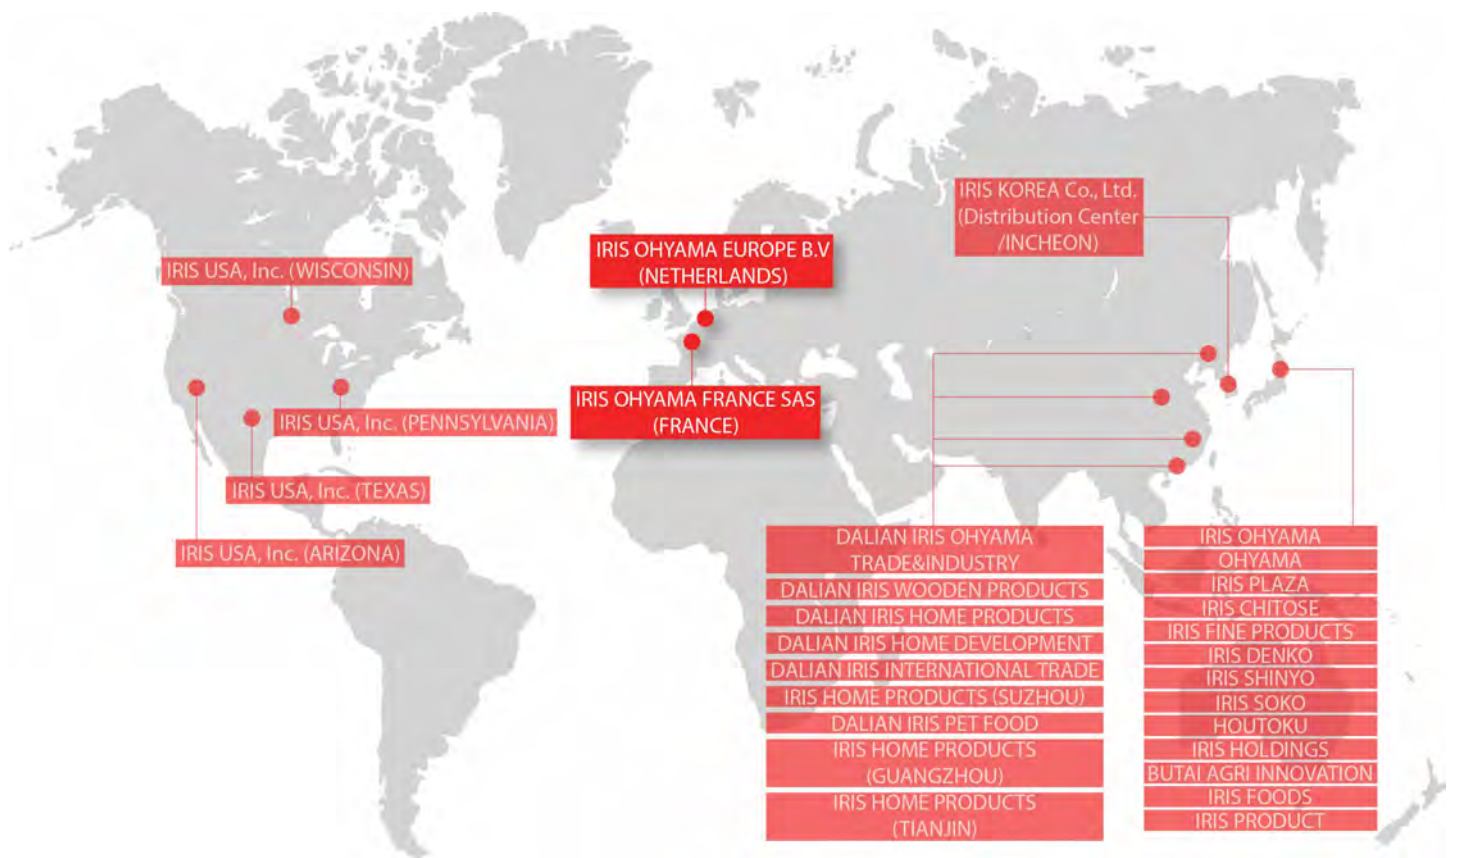

More than sixty years of solutions for everyday life

Worldwide Solutions

Since the 1990s, IRIS has expanded to China, United States, South Korea, and Europe. We now have more than 35 production and distribution facilities across 6 countries, manufacturing and selling locally for local consumption.

In 1998, IRIS expanded business to Europe by establishing a production factory in the Netherlands. Today, in addition to manufacturing plastic products, we are expanding our business by importing and selling furniture and home appliances.

In 2019, IRIS established the second European factory in France. In addition to plastic products, we have begun local production of sanitary masks and circulator fans to further strengthen our production and distribution within the European market.

Through 35 manufacturing and distribution sites with more than 15,000 employees across the globe, we have created a global supply network.

We carry more than 25,000 products and develop over 1,000 new products every year.

IRIS OHYAMA

Philosophy

ORGANISE, TIDY UP, ORDER!

Our mission is to help you organise, optimise and enrich your daily life with useful objects.

We help you to put your environment in order.

*Living alone,
living together,
living as a family,
simply living!*

Discover our **HOME APPLIANCES catalog** dedicated to the **WOZZOO by Ohyama** brand.

ALL SOLUTIONS ARE DEVELOPED FROM **USER-IN-CONCEPT**

We believe that manufacturing is not the goal, but the means to resolving dissatisfaction. The solution to resolve dissatisfaction is not «make what the creator thinks is good», rather «make what the user needs».

“ « I wish this product could be more like this »

« I wish there was something like this » ”

From these ideas, product development begins
The most important thing we value is «ideas».

A variety of products are being created today which began from the «ideas» of our employees.

Follow us on our website
www.irisohyama.fr
and on our social media for
more inspiration and advises

OUR ACTIONS

46% recycled plastic used in 2020.

100% of waste from production processes is recycled internally.

Our production is European.

We manufacture reusable and durable products.

Our products made of wood are FSC® certified, encouraging conservation and ecological management of forests.

Innovation
Responsible &
Impact
Societal

NEW PRODUCTS

We bring these new products to the market.

SORTING OF WASTE

Recycling of products by throwing them in specific collection bins.

REUSE OF WASTE

We reuse these recycled materials to create new products.

WASTE COLLECTION

Waste is sorted and sent to conditioners and recyclers.

CONDITIONING AND RECYCLING

Waste is treated and prepared for reuse.

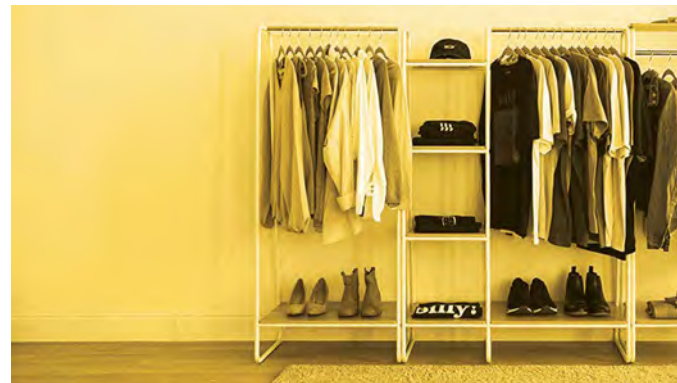

Sign of our commitment, you can easily identify all of our recyclable products made from recycled materials, using labels indicating the use of recycled materials.
